Sedona, AZ (April 16, 2009) -.ADCOM today announced its new corporate structure, officers and positioning statement. Effective immediately, Daniel Donnelly becomes the corporate President reporting directly to Akradej Srichawla, the CEO. Srichawla is the principal owner of Quality Technology Electronics America, Inc. (QTE) and the owner of Quality Technology Electronics Co., LTD, an engineering, design and manufacturing company headquartered in Thailand. QTE has taken a 100% ownership position of ADCOM. These new products will cover virtually all categories from Audio/Video Receivers, Power Amplifiers, Preamplifiers and DVD Players with the integration of digital features, consumer friendly user interface, reliability and the sound/video quality that ADCOM has been known for over the past 35 years. These products will all follow Adcom's Strategic Positioning of offering an exceeding high performance to value ratio in all of its products. This positioning of performance and value is consistent with the products ADCOM originally introduced in the 1980s and 90s which made it one the largest brands of power amplifiers in the world. One of the newest products introduced is the GFA-555SE (Special Edition) power amplifier which redefines the current state of value and performance in the amplifier market place. As additional products are introduced during the coming months, they will all incorporate the ADCOM strategic positioning strategy of high performance and high value.
